Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the mid-month of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

MEDICAL ASSISTANCE (MEDICAID) FINANCED UNDER TITLE XIX OF THE SOCIAL SECURITY ACT - MAY 1978

A record high of $1.724 billion was paid out of Title XIX funds in May 1978, an increase of $101 million over April and $72 million above the previous monthly high recorded in March 1978. Average monthly payments for the twelve month period ending in May equalled $1.498 billion, an increase of 1.47 percent over the twelve month period ending in April.

Approximately 9.4 million recipients 1/ had vendor payments totalling $1.683 billion made in their behalf.

There were concurrently 261,551 Medicaid eligibles enrolled in health maintenance organizations whose premiums totalling $9.8 million were paid out of Title XIX funds.

Persons Served

The percentage distribution of persons for whom medical payments were made by basis of eligibility and money payment status for May is as follows:

Basis of eligibility	Total	Money Payment Status: Money payment authorized	Money Payment Status: Money payment not authorized
		Percent	
Total	100.0	77.5	22.5
Aged 65 and over	24.5	15.2	9.3
Blindness	0.6	0.5	0.1
Permanently and totally disabled	16.8	13.3	3.5
Children under 21 in families	32.2	29.5	2.7
Adults in families with dependent children	20.8	19.0	1.8
Other Title XIX under 21	3.0	---	3.0
Other Title XIX age 21-64	2.1	---	2.1

1/ Recipient estimate for Florida was based on average payments per recipient submitted for prior months and the recipient count for New York was inflated to reflect recipients for several outpatient services in New City (See Annotations).

More than half (53.0 percent) of the recipients for whom vendor payments were made were members of families with dependent children. Children under 21 in families and other Title XIX recipients under 21 accounted for 35.2 percent of recipients. Recipients eligible on the basis of age 65 and over accounted for 24.5 percent of the caseload. Recipients who also recieved money payments outnumbered non-money payment recipients by more than 3 to 1. Among members of families with dependent children under 21, nine out of ten Mediciad recipients also received AFDC money payments.

Medical Payments by Groups of Persons Served

As shown below, the distribution of payments differs significantly from the caseload distribution. Payments for persons not receiving maintenance assistance are nearly equal to those for money payment recipients. The single largest proportion of payments (26.0 percent) are made on behalf of recipients aged 65 and older who are not also recipients of maintenance assistance. Such recipients represent only 9.3 percent of the caseload. Payments for these recipients, to a large extent, are made to medical inpatient facilities which represent the more expensive types of medical services. Only 17.4 percent (about half of the corresponding recipient proportion) of payments are made on behalf of children under 21 years of age. The second largest proportion of payments (28.1 percent) are made on behalf of the permanently and totally disabled.

Basis of eligibility	Money Payment Status		
	Total	Money payment authorized	Money payment not authorized
	Percent		
Total	100.0	53.8	46.2
Aged 65 and over	36.8	10.8	26.0
Blindness	0.6	0.4	0.2
Permanently and totally disabled	28.1	16.8	11.3
Children under 21 in families	14.3	12.3	2.0
Adults in families with dependent children	15.2	13.5	1.7
Other Title XIX under 21	3.1	---	3.1
Other Title XIX age 21-64	1.9	---	1.9

Payments by Type of Service

Inpatient services comprised 72.2 percent of medical vendor payments in May: hospitals (32.7 percent), intermediate care facilities (22.3 percent), skilled nursing facilities (17.2 percent). The change in monthly payments for inpatient services for the twelve-month period ending in May was 1.8 percent higher than payments for the twelve-month period ending in April. Outpatient and other professional services increased 0.8 percent. Among outpatient and other professional services, physicians' services and prescribed durgs accounted for 9.2 and 6.0 percent, respectively, of total payments.

Screening Services

During May 170,821 children were reported as screened under the Early and Periodic Screening, Diagnosis and Treatment Program. About fifty-three percent of the children screened were six years of age or older. Fifty-six percent of the children screened had referrable conditions uncovered and ninety-two percent with such conditions uncovered were referred for diagnosis and treatment.

MEDICAL ASSISTANCE FINANCED THROUGH STATE (GENERAL ASSISTANCE) PROGRAMS

During the month of May 1978, twenty-one States reported a total of $87,959,748 in payments for medical assistance which were not subject to Federal financial participation.

Alaska	$642,661	Maine	$27,349	North Dakota	$1,230
California	50,593,449	Maryland 1/	4,958,441	Oregon	876,344
Colorado	1,233	Massachusetts	252,139	Rhode Island	570,744
Georgia	146,797	Michigan	256,344	South Dakota	95,621
Hawaii 1/	1,157,715	Montana	342,562	Utah 1/	21,164
Illinois	6,479,774	New York 1/	20,627,884	West Virginia	22,566
Louisiana	87,388	North Carolina	167,843	Wisconsin	630,500

1/ States are asked to report medical payments made from general assistance funds separately from Title XIX. Thus, the data are excluded from the detailed tabulations. However, New York reports combined data and Hawaii, Maryland and Utah included the information in the Title XIX statistics prior to July 1977.

ANNOTATIONS

1. The following definitions apply to symbols appearing in the detailed tables:

   ---indicates no data reported.
   Z indicates that the percent was less than 0.05.

2. Arizona has no Title XIX program and is excluded from the tabulations.

3. Oklahoma discontinued its agency pooled fund beginning July 1976.

4. Florida did not report recipients or payments by basis of eligibility of recipient and is excluded from all applicable tables. Data submitted for the month were estimated by the State.

5. Colorado reported recipients and payments by basis of eligibility only.

6. The recipient counts for New York are understated, because recipients of outpatient clinic, physicians' services and prescribed drugs for New York City are not reflected in the reported totals.

7. States do not always report premium or per capita payments into the SSA system for aged and disabled recipients separately. Payments reported under the aged category include payments for the disabled. There is variance from month to month in States reporting SSA and HMO premium payments because, in some cases, such payments may be made less frequently than monthly (Table 1).

8. New Hampshire payments for medical transportation and Colorado payments for dental services are reflected in Tables 1 and 5 only.

9. In addition to Colorado and Florida; Massachusetts, Nevada and Pennsylvania are excluded from Tables 10-13 because children and adults in families were not reported separately. Connecticut, Illinois, and West Virginia were able to report children and adults separately but were unable to differentiate medical vendor payments between adults and children in families. These States are excluded from the total percentage computation in Table 11. Colorado and Pennsylvania did not differentiate other Title XIX recipients by age and are excluded from Table 14.

10. In some States, two or more types of medical services may be grouped together under one class, such as South Carolina where skilled nursing facility services include payments to State mental institutions.

11. For some States, differences in vendor payment amounts between Table 3 and Table 5 are due to inclusion of retroactive adjustments which can be reported by type of service (Table 5) but which are not applicable to the recipients reported in Tables 2, 4, and 6-9. For the current month, however, expenditures for Michigan exclude accounting adjustments of (-$371,847).

ANNOTATIONS SPECIFIC FOR SCREENING TABLES 15-20

12. States omitted from tables either did not report on screening services for May 1978 or there were no individuals screened during the month. Data for Massachusetts are incomplete.

13. California reported 144,105 individuals receiving comprehensive physical examinations in addition to the screening data.

14. Maryland reported 102 individuals screened in HMO's, but such cases were not distributed by age.

15. Included in the totals for Minnesota are 140 individuals screened at MIC and CUHCC projects and for Rhode Island are 857 individuals including 133 newborns for whom there is no further enumeration.

16. Indiana and Ohio reported incompletely with respect to referral status of children screened.

17. District of Columbia, Iowa, Nebraska, New Mexico, North Carolina, Ohio, Pennsylvania, Vermont, Virginia, Washington, and Wyoming reported incompletely with respect to problems uncovered during screening. California reported 5,843 individuals whose immunizations were inadequate. These individuals were excluded from the count of persons with other problems uncovered during screening.

18. Texas data do not include 6,052 dental screenings which are performed separately.

19. Payments for screening services were not reported by Michigan, Pennsylvania and Puerto Rico, and payments for Texas and the Virgin Islands were not reported separately by age.
